Information: 5.1 State Aid Pledge Program – Don Templeton, South Dakota Health and Educational Facilities Authority, reported on the South Dakota State Aid Pledge Program. During the 2015 session, the SD Legislature adopted SB 191 authorizing an expanded State Aid Pledge Program. The purpose of the program is to reduce interest costs for qualifying South Dakota school districts by providing credit enhancement for qualified certificate borrowing. The program allows school districts to pledge Title 13 State Aid payments as additional security for qualified certificate issues. Under the Program, districts whose qualified certificates would ordinarily receive a rating in the “A” category or lower could expect a rating increase to the “AA+” level, with a corresponding decrease in interest rates. A school district that participates in the Program is referred to as a Participant.

The Program will be administered by the South Dakota Health and Educational Facilities Authority. Participants should understand that the Authority will not act as the issuer of any qualified certificates. That is, each Participant will issue its own qualified certificates just as it ordinarily would. The sole function of the Authority under the Program will be to approve applications from qualifying school districts and to monitor the state aid pledge mechanics. He further explained how the program operates and provided the board with an opportunity for questions.
