Testimonials:

"We use SafeSchools Training for a variety of educational opportunities for staff. We use the system for large mandatory state required training as well as specific training for special education staff, food service, paraprofessionals, coaches, custodial and bus drivers. There's a wide variety of training topics and the resources are professional and research based. Staff have found the system to be very user-friendly!"

Camille Kaul – Assistant Superintendent – Aberdeen School District

"We had been researching various programs to find a tool that would allow us to deliver quality professional development and training to our staff. Through ASBSD's diligent efforts, member schools now receive a quality online training program through SafeSchools Training that is free of charge. The variety of training options provides our district with what we need to ensure staff receives both mandated training and other options for continued professional growth."

Dan Martin – Superintendent – Timber Lake School District
