

# Naloxone in High Schools

## Frequently Asked Questions

The following is a Frequently Asked Questions and resource guide for schools regarding implementation of Senate Bill 84 (SDCL 13-33A-9 to 11) which allows schools to use Naloxone for opioid overdose situations.

1. **What is the purpose of SB 84 as it relates to schools?** The purpose of SB 84 is to authorize the possession and administration of opioid antagonists (naloxone/Narcan) by school personnel.
2. **When does SB 84 take effect?** SB 84 contained an emergency clause; therefore, the law took effect March 11, 2019.
3. **Is SB 84 a requirement of school districts?** No, SB 84 is permissive legislation which gives schools the ability to possess and administer opioid antagonists but does not require it.
4. **To implement the specifics of providing the opioid antagonist drug, who will provide the training for schools?** Several training opportunities for school personnel will be provided by the Department of Health. A training opportunity via a webinar will be provided. Also, the webinar will be recorded and made available to schools so that staff can receive the training simply by watching the recorded webinar. An in-person training opportunity will also be provided in conjunction with the ASBSD Conference held in Sioux Falls on August 8, 2019.

It is also important to note that if a school or school district would prefer to arrange their own training, they can certainly do so as long as the training complies with the requirements of SB 84. Local Emergency Medical Services personnel or hospital emergency room staff are suggested local resources.

5. **Within the school who should receive the training for administering the drug?** Any school personnel who will have access to the medication and who may administer the medication must receive the training. Training is not required for school personnel who will not have access to the medication or who will not potentially be administering the medication.
6. **How is Naloxone administered?** Naloxone is an opioid antagonist that comes in either an injectable form or a nasal spray. The medication provided to the schools through this project will be the nasal spray. Therefore, the training associated with this product will focus exclusively on the nasal spray.
7. **Who supplies the drug to the schools, and does it require a physician's prescription to get it?** Adapt Pharma, the company that manufactures Narcan (a brand name of naloxone), is offering to all South Dakota high schools an initial supply (two doses) of the medication free-of-charge. The Department of Health has also committed to re-supplying the medication free-of-charge when necessary as long as they have the medication available in their stockpile. A standing order by a physician will be required for schools who possess the medication. The Department of Health has identified a contract physician who will provide the standing order for any school participating in the program.
8. **Can the drug be administered to anyone in a school setting?** Yes, the medication can be administered to anyone in a school setting for emergency treatment of a known or suspect opioid overdose. Naloxone package information indicated Naloxone is safe for adult and pediatric patients. For more information, please review package information provided with the medication.

# Naloxone in High Schools

## Frequently Asked Questions

9. **Is parental consent necessary to administer the drug?** ASBSD believes schools are covered for liability under SDCL 20-9-4.1 (Good Samaritan statute) which allows for emergency medical treatment, but also recommends schools consult with their local attorney.
10. **Is there a cost to the schools for the training and the drug?** Through this program, the training provide by the Department of Health will be free-of-charge. Also, the cost of two doses of the medication, provided by Adapt Pharma and/or the Department of Health, will be free-of-charge.
11. **What is required for reporting if the drug is administered and who would a school report it to?** Any recipients receiving Naloxone through the DOH and DSS federal grant are required to report naloxone use. The DOH will develop a short form for High Schools to complete and an email address for the completed for to be sent to. This process will also aid in resupplying Naloxone to schools, while resources allow.
12. **Who should schools call for questions and support of this project?** Questions pertaining the Naloxone in the High School project can be directed to [Naloxone@state.sd.us](mailto:Naloxone@state.sd.us). Questions specific to school policy, regulation, etc. should be directed to the superintendent.
13. **Does a school district need a specific policy before administering the Naloxone?** SB 84 requires school board authorization to acquire and administer opioid antagonist medication.—ASBSD strongly encourages schools to adopt sample policy JHCDD - ADMINISTRATION OF OPIOID ANTAGONISTS.
14. **Am I personally liable if something goes wrong or if I don't do anything at all?** SB 84 provides broad statutory immunity protection for schools and school personnel who possess and administer the medication in accordance with State law. For further information about the statutory immunity protections, please consult your school district's legal counsel.
15. **Who do I contact for more information on Naloxone in High Schools?** The Department of Health has established an email address for inquires related to Naloxone training, resupply and reporting. Questions specific to school policy shall be directed to the local school superintendent.
16. **How does a High School Official go about obtaining Naloxone and Naloxone training?**
  - a. Electing to participate, as SB84 is permissive legislation
  - b. Participating in a Department of Health live or recorded training, or equivalent
  - c. Adopting local school board policy for Naloxone training and administration
  - d. Signing the enclosed ADAPT Pharmaceutical order form and the Department of Health's Attestation of Training form. Both forms must be returned to the following email address: [Naloxone@state.sd.us](mailto:Naloxone@state.sd.us).
  - e. The Department will confirm training and request two free doses of Naloxone be processed through ADAPT. ADAPT Pharmaceuticals will only provide two free doses of Naloxone.
  - f. SD High Schools requesting more than the two free doses from ADAPT should contact the DOH. Each request for additional Naloxone will be taken on a case by case basis and as supplies last.
