### Strategic Planning And The Board

Tom Farrell Ralph Wagoner

### Planning - Oh My

- Is this something that your board does on a regular basis?
- How do you accomplish the planning?
- How do you measure the value of the planning you have done?

### Planning Is Important

- Hope as you have your meetings for the 2014 – 2015 school year this is not what you as President nor your board is saying.
- Planning is important for any board that wants to to move forward.

#### Today We Are Planning To Buy Kayaks

- Is that the way that your board year seems to go?
- Do you start with one item, then not quite get the job done and move on to other items?

# So Today We Will Decide Whether to Purchase A Single or Double Kayak

# Certainly Not What This Presentation Is About

- But without planning truly that is how easily we as school board leaders are able to become distracted and get off course.
- There is no need to "Start Your Engines" unless we know where we are going.

#### Yes This Is What It Is About

#### **About Your Presenters**

- Tom Farrell, Current
   President of the Madison
   Central School District
   Board for 3 years
- Fifth year on the board
- Newest member appointed to ASBSD board
- Retired from DSU full time employment in 2009, but still teach some

- Ralph Wagoner, Former
   President at Augustana
   College in Sioux Falls and
   Western Illinois University
- College of education faculty member
- K 12 teacher administrator
- Former school board member
- Trained facilitator

### Leadership Philosophy Dictates

- If you fail to plan you will survive the year, however at the end of the year you may look back and say what did we accomplish?
- You as the Chairperson/President has to take to lead in the area of planning.

#### Planning Requires

- Team work
- Open minds with give and take is an important part of the process
- Much dialog and exchange
- Buy in

#### In The Madison Central School District

- We have planned
- We have taken action
- We have periodically assessed where we are with the plan
- Visited past plans to help with current plan

### During Fall 2013 Planning

- Identified 10 short term items (to be accomplished within the year) 9 of those were addressed during the school year.
- We identified 11 mid and long term items 7 of them were worked on with 5 of them completed and in place for the current school year.

#### The Madison Planning Team

- The Madison Central School District has a seven person board
- One superintendent
- We have three building principals
  - Elementary Middle School High School
  - One Assistant High School Principal/Activities Dir.
- One special education director
- One part time curriculum director
- One tech director
- One business official
- One director of maintenance

# The Expectation Of The Planning Process

- All will participate
- The facilitator will be certain that all have an equal opportunity to speak
- Decisions will be made by consensus
- No actions are able to be taken because this is not a meeting but rather a work session

#### The Role Of The Facilitator

- Meet in advance of the actual planning session(s) with at least board president and superintendent
- To be a guide and not a decision maker
- Provide equality of discussion times

# Many Pieces For 21<sup>st</sup> Century Education

- Factors that make planning even more important/difficult today:
  - Limited resources
  - Limitations on time
  - Protection of turf
  - Many other factors

#### The Madison Method

- We use a facilitator, Ralph Wagoner.
- The facilitator, board president and superintendent meet about 4 to 6 weeks in advance of the first planning session.
- The agenda includes determination of the dates, locations, attendees and other logistics.
- At this time the e-mail correspondence is approved prior to sending out to participants.

### Madison Method (continued)

- Each participant receives a personal e-mail using mail merge from the President requesting their input and announcing the date and time.
- The next slide describes what each participant is to complete no later than one week prior to the date of the planning sessions.
- Receipt is acknowledged and those who have not submitted are nudged to complete.
- We expect and get 100% participation.

### Madison Method (e-mail excerpt)

- These topics should include short term (to be completed by the end of the current school year), mid term (to be completed by the end of the next 1 to 2 school years), long term (to be completed within the next 5 years).
- As we discuss the topics we will attempt to determine which of the above categories they fit into.
- No topic is too large or too small to be included in your list.

### Madison Method (continued)

- All correspondence done through e-mail
- Lists compiled and distributed electronically
- Single electronic copy of decisions done by one of the group
- Cuts down on paper costs

# Madison Method (continued) Compiled List

Madison Central School District ← Retreat Topic Tracking Sheet ¶

Topic¤	Rank	Submitted	Time	Board-	Item ♯	
		By¤	Frame			
		Dy.		Admin <sup>♯</sup>		
Renew agreement with Diana Tyler for curriculum/staff development	1#	Schaefer♯	Short¤	AΠ	1 short¤	Ħ
Making room for, but coming up with a solid solution for more students	1#	Miller♯	Short¤	BH	2-short¤	
coming to the district. Do we need to restructure the pods, or the age						
groups that attend the elementary, middle and high school						
Implement a value added component to the Smarter Balanced	1#	Shaw¤	Short¤	AΗ	3-short¤	- 1
Assessment. I would like to use the Open Campus "Senior						
Privileges". Students must score proficient or advanced on their tests

Opt-Out <sup>♯</sup>	111	Thompson¤	Short¤	BH	8-short¤	
To continue to expand our knowledge as a school board:	1#	Sims♯	Short¤	BĦ	9-short¤	
→ Tour of Graceville Colony? ¶						
→ Tours at the schools? ¶						
→ Annual ASBSD Conference ¶						
→ ASBSD Regional Meetings ¶						
→ Understand how teachers are evaluated ¶						
→ Understand Common Core curriculum						
How we are going to budget for and expand the needed technology for	1#	Honomichl <sup>a</sup>	Short¤	AĦ	10 short¤	1
testing purposes?						

### Madison Method (continued)

- The facilitator, superintendent and board president meet the week of the planning to once again be certain all on the same page with topics that have been suggested
- Provides time for some possible preparation for topics if needed
- Final procedures reviewed as to what the planning day will consist of

# Madison Method (continued) Compiled List

- Our first planning sessions have been done on a Saturday morning
- Usually scheduled for a maximum of 5 hours
- May provide snacks and sometimes even light lunch
- Need at least one more follow up session, but we have found the more times we complete the planning the more we accomplish in a shorter amount of time

### Madison Method (continued)

- All topics make the preliminary list and that compiled list is sent to all participants in advance of the planning session.
- 2013 we had over 120 items that were submitted.
- Several items submitted were duplicates which easily were able to be combined.

#### **Example of Short Term Goals**

#### ərm 🗐

Opt-out: \$250,000 that expires at the end of 2014; helps make up the shortage in our bud can start making motion in January; need to start acting on this early 2014; we can simply and then have the public refer it to a vote; last two times it has been for 4 years; we set the 1-99; in the past board has referred this; Vince advises that we not refer it but if it is referre votes needed to refer it); raised taxes .34 in recent year; would look to leave it the same; th completion of 8th year of opt-out; need 50% to pass.

Continue contract with Diana Tyler for training - recommended by the whole administrateam; more accessible than ESA.

Discussion about work session on **Common Core and Smarter Balance** (admin); all are in agreement that this would be beneficial - we will do this on October 21st at 5:30 T

DIBELS- Janel -- universal screener -- measures skills early on; start with language arts and moves on to math; MS is in favor of this as well; Adam implemented this in Marion; benchn testing for every student; more diagnostic way of seeing where the kids are at; what does to need to do? -- may need to put more subs in so the classroom teachers can get the testing.

# The Planning Process Requires Someone To Wear This Hat

#### The Facilitator

- Helps us determine our priorities
- Use various methods but agreement is important
- Prior to completion of the final session we have established our Short/Mid/Long goals
- Include a who and if possible a when work is to begin

### Planning Is Only The Beginning

- You can plan all you want but the plan must be put into action
- Must identify:
  - Who
  - When
  - Where
  - What
- Need to do periodic checks as to what has been done

# Without Planning And Without Action From The Plan This Is What You May Have

#### So

- Do you have a plan?
- Can you make a plan?
- Can you carry out that plan?
- Who will you involve?

## Questions

• Thank you!
