

WADE'S WELCOME

DR. WADE POGANY
ASBSD EXECUTIVE DIRECTOR

One of South Dakota's best assets is our great education system. From Kindergarten through 12th grade our kids demonstrate success in many different ways. Some are honored for their academic achievement, some for athletic or fine arts talents, while others for their involvement in clubs and organizations in their schools.

Our teachers, administrators and school support staff play a huge role in the success of our students, as do many community members in each school district.

It's important that we tell the stories of everyone who contributes to the education of our children, the future leaders of this great state.

The Good News Bulletin is our way of highlighting some of the stories that illustrate the achievement of our schools and a way of life in South Dakota.

The Good News Bulletin gives you a look at the many successes our schools produce. We received stories from schools across South Dakota, highlighting student achievement, community involvement and significant accomplishments.

It shines a spotlight on innovation, hardworking teachers and students who will someday continue their excellent work by leading our state.

We want to thank the board members, administrators and teachers from our school districts who submitted stories, as well as Mari Biehl and staff from the South Dakota Innovation Lab.

ASBSD is proud of our state and our schools. After reading the Good News Bulletin, we hope you will agree, South Dakota's education system is truly one of our greatest assets.

These are stories about our great South Dakota schools.
